## ONLINE CODDING

**Problem** | Submissions | Leaderboard | Discussions | Editorial

You are given the first name and last name of a person on two different lines. Your task is to read them and print the following:

```
Hello first name last name! You just delved into python.
```

**Input Format**

The first line contains the first name, and the second line contains the last name.

**Constraints**

The length of the first and last name  $\leq 10$ .

**Output Format**

Print the output as mentioned above.

**Sample Input 0**

```
Ross
Taylor
```

**Sample Output 0**

```
Hello Ross Taylor! You just delved into python.
```

**Explanation 0**

The input read by the program is stored as a string data type. A string is a collection of characters.
